

Mbrico Accessory Decking Options - IPE Deck Tiles

Static: Wet - .615FP

Dynamic:Wet - .43FP

Grooved decking surfaces are not recommended...Why?

Grooved surfaces reduce surface area contact with a shoe and are more difficult to clean supporting the collection of food and dirt which encourages fungi growth further reducing slip resistance. MRP Supports' Deck Tiles are rated to carry a live load of 100 psf.

***Use of Cleaning or Finishing products on Iron Woods® Deck Tiles in roof applications is not recommended without consulting product manufactures due to potential risk to EPDM or other roof substrates.**
