

FAR FROM ORDINARY

MBRICO

— PORCELAIN TILE DECKS, FLAT ROOFS, BALCONIES, AND LANDSCAPES —

Environment as a Work of Art

Creating spaces reflecting you is at the heart of everything we do. Every Mbrico project is crafted as a work of art, seeing space as an environment to not just exist, but to live. Mbrico's unmistakable styling, creative craftsmanship and technological innovation is second to none. Whether you enjoy traditional, modern, avant garde, rustic, or your own unique style, we can create a space that is undeniably your own.

WHO WE WORK WITH

Mbrico is proud to work with organizations that reflect our own passion, innovation, and values in bringing the highest quality to our work to create the perfect space for you.

+ MORE

A Living Legacy with Mbrico

With a legacy rooted in innovation and design, Mbrico has spent over a decade redefining outdoor living through precision, craftsmanship, and timeless style. Each project reflects a commitment to excellence—where advanced technology meets aesthetic vision to create spaces that are crafted to endure in both form and function.

We haven't just created our own history—we have been a part of yours. We are honored to help you build and craft your own story in your project that is distinctive and unique.

More About Mbrico

Welcoming and Elegant

Deck Systems

Mbrico's rich experience led us to create a luxurious yet uncomplicated groutless, tongue and groove tile deck system that integrates beautifully into any commercial or residential design, no matter the style.

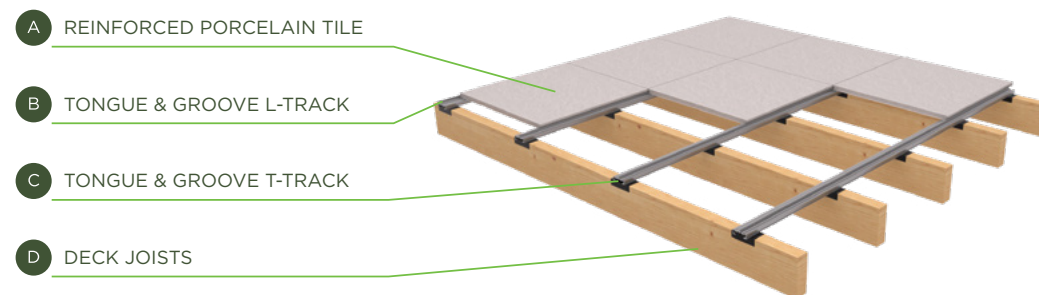

Mbrico's industry-first reinforced porcelain joist framed decking system features precision design, superior quality, easier installation, lower maintenance and more color options than other conventional decking solutions.

Our revolutionary and proprietary track system is easily installed by any skilled carpentry, deck and fence company, or landscaping crew, allowing for a simple and effective install, unmatched durability, and timeless beauty.

This is a really impressive system. Made in America, family owned, a builder inventor. [Mbrico] has it going on.

The Qualities of Mbrico

- ◆ COOLER TO THE TOUCH
- ◆ GROUT FREE
- ◆ INTERIOR + EXTERIOR
- ◆ 4,500 LB WEIGHT LOAD
- ◆ EASY TONGUE + GROOVE INSTALL
- ◆ BUILT FOR CONVENTIONAL CODE FRAMING
- ◆ ANTI-MOLD
- ◆ ANTI-SLIP
- ◆ SCRATCH PROOF
- ◆ FROST PROOF
- ◆ CLASS A FIRE RATED
- ◆ ONE PURCHASE LIFETIME PRODUCT

Unique Pieces to Reflect You

Each Mbrico project is brought to life with a dedication to crafting you a space to remember, to make memories, to create life as a work of art. Mbrico offers a vibrant array of special pieces for you to have the right surrounding materials that speak to you.

Decking Redefined

Mbrico Tile Decks have redefined the quality and aesthetic of the decking industry. With our passionate commitment to innovation, engineering excellence, and breathtaking artistry, Mbrico has set a new standard in outdoor living environments.

Our revolutionary reinforced porcelain decking utilizes a tongue and groove track system that is completely self-spacing and free draining and can be laid over standard treated lumber, steel, or aluminum joists, providing a straight, self-leveling extrusion that guarantees perfect spacing and installation. Practical and beautiful, that's the Mbrico difference.

Paver Systems

for Signature Spaces

Mbrico paver systems offer a sophisticated solution for outdoor surfaces where design and durability must coexist. With the flexibility to install over grass, gravel, or sand, this hardscaping is ideal for patios, pool decks, garden paths, and other open-air spaces. Engineered for year-round performance, Mbrico pavers provide a refined alternative to traditional stone, wood, or concrete—without sacrificing ease of installation or lasting visual appeal.

Mbrico combines fine American craftsmanship, high-quality stoneware, and adaptable design patterns to suit your style. The result? Exquisite tile environments that enhance your everyday living and pave the way to unique, beautiful spaces.

The ease of install and overall durability of Mbrico makes our jobs as landscape contractors more efficient, and the finished product for our customers is always above their expectations.

- Kyle Lewis, Project Manager
Heritage Landscape Design

Paving the Way, Your Next Step

Beautiful outdoor areas start with the right materials. Our full line of traditional hardscaping and landscaping porcelain tile pavers for on-grade applications offer a high-end product at an affordable price.

Pavers are ideal for walkways, patios, pool decks, and more—offering versatile solutions for a range of outdoor applications. Our systems support dry installation on grass, gravel, or sand; they’re easy to lay, adjust, and reposition. They can also be installed on screed using adhesive. Whatever the surface, Mbrico enhances it with lasting beauty and refined functionality.

Designed to Inspire, Built to Last

An Mbrico space is more than something you live in—it's an experience you feel. Designed to inspire creativity and harmony, it elevates your home and business with a sense of calm and refined elegance.

Each Mbrico surface is meticulously crafted to complement its environment, using only the highest quality materials and a level of detail that sets it apart. This unwavering commitment to excellence has earned Mbrico prestigious certifications and industry awards—recognition that reflects the innovation and integrity at the heart of every project.

Innovation Beneath Every Step

Mbrico's patented track system, combined with aluminum joists and adjustable pedestals, creates a grout-free, self-spacing surface that installs with the precision of a tongue-and-groove wood floor. Designed for clean lines, consistent spacing, and easy height adjustments, the system offers fast, flexible installation over virtually any surface—delivering a seamless, refined finish every time.

Built to withstand the elements, Mbrico's substructure resists wind uplift and movement—even in high-exposure environments. Paired with the exceptional durability of Mbrico's porcelain tile—offering low water absorption, high strength, and slip resistance—the result is a complete installation system that combines refined design with long-lasting performance.

American Ingenuity, Consciously Crafted

Mbrico tile systems are proudly made in America, blending timeless aesthetics with environmentally responsible production. Manufactured using only the purest raw materials and designed to meet the highest LEED and sustainability standards, Mbrico offers a durable, low-maintenance solution that aligns with both modern living and ecological values. From wood and stone looks to aggregate, plank, and large-format styles, every tile is built to perform—and designed to last. When it comes to Mbrico, American-made beauty, longevity, and environmental responsibility come standard.
